FOREWORD

H.E. Anders Sjöberg
Ambassador
Embassy of Sweden
to Singapore

Ms. Lisa Ferraton
General Manager
Swedish Chamber of
Commerce in Singapore

Mr. Ludvig Hermansson
Country Manager
Business Sweden
Singapore

Swedish-Singaporean trade relations have a long and rich history. Several Swedish companies established a presence in Singapore as early as the beginning of the 20th century, and diplomatic relations between our countries are nearly as old as the Singaporean nation itself.

Both Sweden and Singapore are small, smart, and export-driven economies that strongly advocate for free and open trade. In an era of rapidly evolving global trade dynamics, international collaboration - both governmental and commercial - is essential for maintaining competitiveness.

Sweden is among the countries with the highest number of multinational corporations per capita, while Singapore stands out as one of the world's most open and competitive economies, strategically positioned in a thriving and fast-developing region. These strengths have attracted a wide range of Swedish companies across multiple sectors to establish and grow their presence in Singapore, leveraging the vast opportunities in the region.

Beyond traditional trade, new ties are being forged in critical areas for future growth, such as research and development, innovation, sustainability, and the green transition. These emerging partnerships not only strengthen economic collaboration but also support joint efforts in advancing resilient supply chains and cutting-edge solutions to global challenges.

This directory includes contact details and key information on approximately 200 Swedish businesses of varying sizes and from diverse industries. In the spirit of free trade and international cooperation, its purpose is to highlight the strong Swedish presence in Singapore and to promote even deeper connections and collaboration between Swedish companies as well as between Sweden and Singapore.

We hope you find this year's Swedish Business Directory a valuable resource and wish you every success in your future Swedish-related ventures.

TEAM SWEDEN

**Embassy of Sweden
Singapore**

The Embassy of Sweden in Singapore promotes and strengthens bilateral relations between Sweden and Singapore. While the Embassy's primary focus is on trade promotion, it also fosters cooperation in areas such as culture, education, and defence. In addition, the Embassy provides consular services to Swedish citizens living in or visiting Singapore, as well as immigration - related services. It is also accredited to Brunei Darussalam, where it carries out a similar mandate to deepen bilateral ties.

**ambassaden.singapore@gov.se
www.swedenabroad.se/singapore**

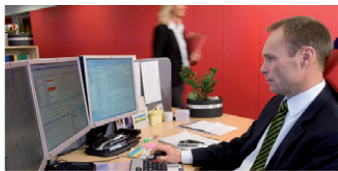

SwedCham is a non-profit, membership-funded organization representing the Swedish business community in Singapore. For over 40 years, we have worked alongside our strong fleet of Swedish multinational companies, SMEs, and start-ups to build connections and drive progress. Our focus areas include innovation, technology, sustainability, entrepreneurship, and diversity - values that are embedded in everything we do. With over 50 events annually, SwedCham is one of the most active international chambers in Singapore. We are especially recognised for our innovative local outreach initiatives where we provide a platform for our member companies to connect with and contribute to the broader Singaporean society.

**info@swedcham.sg
www.swedcham.sg**

Business Sweden is jointly owned by the Swedish state and the Swedish business sector with a mandate and a mission to help international companies gain access to the Swedish market and help domestic ones utilise it as a platform for expansion. Our clients range from start-ups via small - and medium sized businesses to multinational enterprises – with tailor-made services catering to all of these segments. We have an holistic approach, offering both hands-on support, strategic and practical expertise and a unique capability to create access where access is hard to get. Our expertise, presence and exclusive access to networks and stakeholders in both the public and private sectors in these markets gives us a supreme ability to help clients navigate regional business structures in order to expand their business and unlock growth. In short, we help companies turn opportunities into reality.

INNOVATION

Millions of hours of music are streamed globally thanks to Spotify. Countless lives have been saved by Swedish inventions like the three-point seatbelt and the pacemaker. These are just a few examples of how Swedish innovation continues to shape the world we live in.

According to the European Innovation Scoreboard 2024, Sweden ranks as the third most innovative country in the EU, with an innovation performance at 132.9% of the EU average. Sweden is classified as an Innovation Leader, exceeding the average performance of its peers in the same category. The country shows particular strength in public-private co-publications, collaborative SMEs, and benefits from robust framework conditions including high-quality human capital, an attractive research environment, and advanced digital infrastructure.

Sweden's innovative spirit reaches far beyond its borders, fostering impactful partnerships with other forward-thinking nations. Notable examples include deepening innovation collaboration between Sweden and Singapore in areas such as digital transformation, health tech, sustainability, and inclusive economic growth.

With Singapore as a strategic hub to Southeast Asia's dynamic digital economy, and Sweden contributing world-leading expertise in areas such as AI, fintech, and green technologies, this collaboration sets the stage for pioneering solutions that will help shape a more sustainable and connected future.

EXAMPLES OF RECENT SWEDISH INNOVATION

#1 Polarium Batteries

Since its founding in 2015, Polarium has been leading the charge in green energy advancements, specializing in lithium battery technology for energy storage solutions, particularly in the telecommunications sector. With a clear mission to create the best energy storage solutions in the world through smart, safe, and sustainable battery technologies, Polarium has driven significant progress in optimizing energy use and reducing carbon emissions. As the company celebrates a decade of innovation and leadership in 2025, Polarium continues to showcase Sweden's role in the transition to clean energy, offering high-performance storage systems for backup power and renewable energy integration.

#2 Anyfin

Anyfin is reshaping financial services with AI-powered lending solutions that help users refinance existing loans and credit at lower interest rates. By making debt management more transparent and accessible, the platform enables consumers to take control of their financial health. In addition to refinancing, Anyfin offers tools and insights to improve financial literacy, empowering users to make smarter financial decisions. With its innovative approach to fairer lending, Anyfin highlights Sweden's leadership in fintech and its commitment to financial well-being for all.

Source: www.sweden.se

#3 ClimateView

Sweden is leading the charge in climate innovation, and ClimateView is at the forefront with its AI-powered platform designed to accelerate the transition to net-zero. Since 2018, the company has helped cities and regions optimize their climate plans by providing data-driven insights and real-time simulations to track progress and make informed decisions. ClimateView's platform empowers governments and businesses to align their strategies with climate goals, ensuring faster and more effective action. ClimateView is shaping the future of climate action, using AI to drive a sustainable and net-zero future for cities worldwide.

#4 Karma

Sweden continues to lead in sustainability-driven innovation, and Karma is making a significant impact by tackling food waste through technology. This app connects consumers with over 4,500 restaurants, cafes, and grocery stores, offering surplus food at discounted prices, typically up to 50% off. Since its launch, Karma has saved over 10 million meals from being wasted, helping to reduce food waste and promote sustainability. By creating a seamless marketplace for unsold meals, Karma not only helps cut down on food waste but also makes eco-friendly choices more accessible to the public.

#5 Instabox

Instabox is revolutionizing last-mile delivery with its automated parcel locker system, providing a faster, more convenient, and eco-friendly solution for parcel collection. With over 3,500 lockers across Sweden, Instabox has streamlined logistics by offering consumers the flexibility to pick up their packages at any time, while significantly reducing emissions. By replacing traditional home deliveries with sustainable locker options, Instabox is improving efficiency and lowering carbon footprints. This innovative approach to delivery showcases Sweden's commitment to sustainability, setting a new benchmark for smart, green logistics in the industry.

#6 Yazen

Yazen is transforming healthcare with its telehealth platform designed to address obesity-related health conditions. By combining digital solutions with continuous health monitoring, Yazen offers personalized care plans tailored to each individual's needs, promoting sustainable weight management. The platform provides users with access to health coaches, nutritionists, and personalized health data, helping users make informed decisions about their wellness. Yazen's innovative model makes healthcare more accessible and efficient, reflecting Sweden's leadership in integrating technology into healthcare.

SUSTAINABILITY

INTERNATIONAL COMMITMENTS

Sweden has long been a global leader in environmental sustainability, balancing economic growth with ambitious climate action. As the first country in the world to pass an environmental protection act in 1967 and host the first UN conference on the global environment in 1972, Sweden has consistently been at the forefront of sustainability efforts.

Today, around 60% of the country's national energy supply comes from renewable sources, and strict legislation continues to drive emissions reductions. Sweden aims to be fossil-free by 2045 and achieve 100% renewable energy, reinforcing its dedication to long-term environmental responsibility.

A hub for environmental research, Sweden is home to institutions like the Stockholm Environment Institute and the Stockholm Resilience Centre, where experts work on global sustainability challenges. The country consistently ranks among the top nations in the Environmental Performance Index, recognized for its clean air, water, and strong environmental policies.

Despite its progress, Sweden acknowledges that more work is needed, particularly as a wealthy nation with a significant environmental footprint. However, its history of innovation - from tackling acid rain to pioneering recycling systems - demonstrates that sustainability and development can go hand in hand. Greta Thunberg's climate activism, which began in 2018, amplified Sweden's voice on the global stage, inspiring millions and reinforcing the nation's leadership in the fight against climate change.

THE SWEDISH RECYCLING REVOLUTION

Sweden's reputation as a waste management leader stems from its deeply ingrained recycling culture. Convenient recycling stations, readily accessible to residents, facilitate high participation rates. Swedes meticulously sort household waste, directing metal, plastic, and glass into dedicated recycling streams. Non-recyclable waste is repurposed in waste-to-energy plants, a process so efficient that Sweden began importing waste from neighboring countries in 2012, now contributing significantly to district heating and electricity. The government has set a target to decrease food waste by 20% per person from 2020 to 2025.

Aiming for zero waste. This means stepping up from recycling to reusing

Sweden is also looking beyond traditional recycling. A “circular economy” approach, aiming for complete reuse of products, is gaining traction. The Swedish government established an advisory group to integrate this concept into policy. Startups like Beteendelabbet are innovating to make sustainable living easier. They focus on creating services that facilitate sharing and reusing various items, from gadgets to homes. Sweden boasts impressive recycling rates, with over 8 out of 10 cans and bottles recycled through the “pant” deposit system. In 2022, Sweden managed 4,100,000 tonnes of municipal waste, with over 50% being converted into energy which can be used to powering buses and heating systems through incineration and biogas conversion. The aim is to make current traditional methods of waste management seem as outdated as fossil fuels in the future.

DIPLOMATIC RELATIONS

Diplomatic relations between Sweden and Singapore were formally established in 1966, shortly after Singapore's independence. Sweden's trade ties with Singapore, however, date back to 1850, when it established an honorary consulate in the city. Today, the two countries enjoy strong and multifaceted relations, with active collaboration in research, innovation, defence, and sustainability.

As highly export-oriented economies, both Sweden and Singapore are strong advocates of free and open trade. In 2024, Sweden conducted its first state visit to Singapore, marked by the visit of H.M. King Carl XVI Gustaf. It led to new agreements in key sectors including health, energy, and transport. Core areas of cooperation continue to include business, science and technology, and sustainable development.

TRADE RELATIONS

Scan the QR
code to access
the Business
Climate Survey
2025

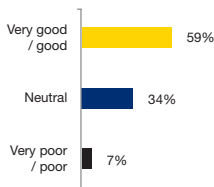

Relations between Sweden and Singapore are close to six decades in the making. Since the first Ambassador of Sweden took up residence in the country in 1966, ties between the two countries have flourished with increased partnerships and trades between companies from both countries. From 2016 to 2023, exports from Sweden to Singapore grew at an average of 6% annually, reaching a high of US\$1.48 billion (~14 billion SEK) in 2023. Foreign Direct Investment from Sweden into Singapore has also grown at an average of 26% annually from 2017 to 2022, reaching a high of 19 billion SEK in 2022.

Singapore has generally low trade barriers to conducting business. Singapore's status as a trade hub supports Swedish companies' drive to access dynamic, growing markets in the region. Signed in 2018, the European Union-Singapore Free Trade Agreement has benefited both countries. Since then, all tariffs have been removed, alongside reduced technical barriers, easier procurement processes, and additional intellectual property rights protection.

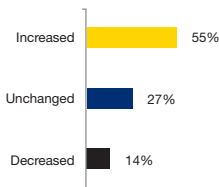

In Q1 2025, the 2025 Business Climate Survey was conducted for the eighth consecutive year to provide a deeper view of Swedish companies' perspectives on Singapore's macroeconomic conditions, opportunities, and challenges. The survey was conducted in the backdrop of an increasingly uncertain global business climate. However, even in the backdrop of the economic uncertainty, perception of the current business climate in Singapore by Swedish companies has continued to remain optimistic, albeit at a more cautious rate.

Some key survey findings:

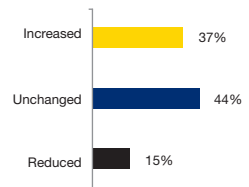

Perception of current business climate in Singapore

Expected industry growth in the upcoming year

Company's investment plans for the upcoming year

The survey also found the top 5 areas Singapore excel in for companies here:

**Personal
Safety**

**Physical
Infrastructure**

**Financial
System**

Customs

**Corporate
Taxation**

Innovative solutions for a **tactical advantage**

AAK

Everything we do is about Making Better Happen™.

AAK specializes in plant-based oils that are the value-adding ingredients in many of the products people love to consume. We make these products better tasting, healthier, and more sustainable. We enhance their sensory experience – by giving the silkier mouthfeel in premium chocolate, the juicier texture in a plant-based burger, and the puffer appearance in a lower-fat pastry.

We can also optimize their production by substituting existing ingredients with plant-based equivalents that give better efficiency.

Our 4,000 employees support our close collaboration with customers through 25 regional sales offices, 16 dedicated Customer Innovation Centers, and with the support of more than 20 production facilities. Listed on Nasdaq Stockholm and with our headquarters in Malmö, Sweden, AAK has been Making Better Happen™ for more than 150 years.

The logo for Easy-Laser, featuring the text "EASY-LASER" in a bold, black, sans-serif font, with a registered trademark symbol (®) to the upper right of the word "LASER". The text is set against a yellow, pill-shaped background.

Easy-Laser

Straightforward by all measures.

Easy-Laser® is the world's leading manufacturer and supplier of laser measurement systems for all types of industry. We provide extreme accuracy and precision.

In the long run, what really counts is neither the absolute straightness of an individual component nor the precise alignment of shafts. It's what these measures add up to: Increased productivity and the saving of resources. Those are the things we ultimately deliver.

That means developing user-friendly measurement and alignment systems that are as easy to get your head around, as they are versatile and scalable. It also means shortening delivery times, extending warranties, and optimising training and support.

Fika

Fika is a social institution in Sweden; the word "FIKA" means pausing and enjoying a small snack whilst spending time with one's colleagues, friends, date, or family. Started in 2009 in the heart of Arab Street by a Swede, Joakim Smidhagen, Fika has grown to be the brand name for authentic home-style traditional Swedish meals. Its famous signature "Swedish Meatballs" are hand-rolled fresh daily and served with a side of baby potatoes and pickled gherkins topped with creamy brown sauce. The best compliments they have received for their meals are Swedish guests saying, "This tastes better than mum's cooking!". Using only the finest and freshest ingredients to create their dishes and serving them in a cosy Scandinavian interior, To expand their expertise in Swedish treats and much to the delight of their guests, Fika also opened a European bakery "Konditori Artisan Bakes" in 2016, just a stone's throw away from the cafe, in Bussorah Street.

Founded in 1986, Forsman & Bodenfors has achieved global fame as a creative collective that transforms businesses and shifts culture. One of the most awarded agencies in the world, F&B is renowned for its uniquely flat structure, radically collaborative ways and highly creative ideas that transcend media and earn their way into culture for clients including Volvo, Oatly, H&M, P&G and Diageo. The collective has grown from Swedish roots to offices around the world, including Singapore, Gothenburg, Stockholm, London, Dublin, Dubai, Shanghai, Toronto and New York. The first creative agency to be certified by the Fair Pay Workplace for gender pay equity, Forsman & Bodenfors is part of the challenger network Stagwell.

Greater Than

Greater Than - an InsurTech that provides AI-based predictive risk insight that enables car insurance and new mobility companies to price and manage their customers as individualised as any new digital service provider. Our AI understands risk over the whole world, predictably, unbiased, and individualised – providing a unique view on risk in mobility. Our AI revolutionises risk predictions, insurance pricing, loss control & customer management; by predicting a driver's probability of car accidents. Our AI - a key component for making insurance fair and new mobility financially viable. Greater Than partners with world-leading companies such as Toyota's Kinto new mobility, MSIG, Zurich, Microsoft & FIA. Greater Than is listed on NASDAQ First North in Stockholm.

Gloobe

A Swedish-Singaporean Life Science company developing clinical therapy and products containing specific plant-based BFC's (Bio-active Food Compounds) targeting to become 1st line non-pharma therapy preventing and intervening in Non-Communicable Diseases (NCDs) like Gestational Diabetes Mellitus (GDM) and Type 2 Diabetes Mellitus (T2DM). The optimised products which have entered the process and clinical validation stage provide a novel, convenient, and scientifically based solution for the management of diabetes and overweight. The development of the process and product was made possible through extensive multidisciplinary cooperation between food and medical science experts.

It is anticipated that the convenient, IP-protected clinical concept and product will become a new and vital component within the daily food and nutrition intake. This may significantly improve the welfare of either confirmed T2DM or those in the pre-diabetic stage of the disease.

Polestar is the Swedish electric performance car brand with a focus on uncompromised design and innovation, and the ambition to accelerate the change towards a sustainable future.

Polestar has three models in its line-up: Polestar 2, Polestar 3, and Polestar 4. Planned models include the Polestar 5 four-door GT, the Polestar 6 roadster and the Polestar 7 compact SUV. With its vehicles currently manufactured on two continents, North America and Asia, Polestar plans to diversify its manufacturing footprint further, with production of Polestar 7 planned in Europe.

Polestar has an unwavering commitment to sustainability and has set an ambitious roadmap to reach its climate targets: halve greenhouse gas emissions by 2030 per-vehicle-sold and become climate-neutral across its value chain by 2040. Polestar's comprehensive sustainability strategy covers the four areas of Climate, Transparency, Circularity, and Inclusion.

Polestar

100% electric

We are Polestar. We build electric performance cars.

Design is what guides us, passion is what drives us, and innovation is what defines us. We're creating what we want to see. Exciting cars that offer pure, progressive performance. And a more sustainable, electric future.

We began in Scandinavia. But we didn't stop there. And we're nowhere near finished.

Prosweco

PROSWECO is an independent Swedish technical consultancy company working with qualified status reviews of large pressure vessels, like boilers and digesters. We also perform consultancy for water treatment and corrosion problems, as well as failure investigations and technical seminars in materials technology. Prosweco has its head office in Stockholm, Sweden, and two subsidiaries are in Singapore and São Paulo, Brazil. We perform annually about 100 recovery boiler inspections worldwide, in addition to numerous inspections of power boilers, digesters, and other large pressure vessels. We also perform manufacturing and erection reviews.

Volvo Cars

For life. Personal. Sustainable. Safe.

From the very outset Volvo Cars has been a brand for people who care about the world we live in and the people around us. We have made it our mission to make life easier, better and safer for everyone. For a better future. We want to provide you with the freedom to move in a personal, sustainable and safe way. Everything we do starts with people. We understand people. We protect what's important to them and want to make them feel special. We take pride in our role within society and recognise our commitment towards the environment. We innovate to make people's lives better and less complicated. Our human-centric focus is what makes us different from all other premium car companies. And, it is at the heart of everything we create. Volvo Cars has committed to having fifty per cent of our global sales coming from fully electric premium vehicles by 2025. To being a fully electric premium car company by 2030 and to be a climate neutral company by 2040.

Wallenius Marine

Wallenius Marine is a Swedish shipping company with over 90 years of experience and a strong legacy of innovation and responsibility. Today, they are committed to driving the transition towards truly sustainable shipping – through energy-efficient vessel design, smart operations, and reduced climate impact. Their operational hub in Singapore plays a key strategic role in this mission. The local team manages a growing fleet and oversees complex projects, including major vessel upgrades. From Singapore, Wallenius Marine deliver a full range of services – from crew and technical management to advanced performance analysis – helping shipowners improve efficiency and reduce emissions.

Westermo Data Communications

Westermo Data Communications Pte Ltd Singapore is a subsidiary of Westermo Network Technologies AB, headquartered in Västerås. Since 1975, Westermo designs and manufactures data communications products for mission-critical systems in physically demanding environments. The products are used both in social infrastructure, such as transport, water, and energy supplies, as well as in process industries, such as mining and petrochemical. With advanced cybersecurity and redundancy features, the products are used to create resilient communication networks. Westermo Singapore is the hub for Southeast Asia, having Malaysia, Indonesia, Thailand, South Korea, and Vietnam as the main markets. In Singapore, the products are used for metro trains, water plants, highway tunnels, electrical substations, and solar systems.

OTHER SWEDISH ORGANISATIONS AND USEFUL INFORMATION

SEK – THE SWEDISH EXPORT CREDIT CORPORATION

SEK finances Swedish exporters and buyers of Swedish products and services. SEK complements the client companies' existing borrowing sources and serves as an alternative for Swedish exporters that require access to multiple alternative sources of financing. SEK is a long-term partner with considerable experience in international financing and can offer long credit periods.

www.sek.se/en

NATIONAL BOARD OF TRADE

The National Board of Trade is the Swedish governmental agency responsible for foreign trade, EU internal market and trade policy. Its mission is to promote open and free trade with transparent rules. The basis for this task, given by the Swedish Government, is that a functioning international trade and a further liberalised trade policy are in the interest of Sweden.

SWEDISH TRADE FEDERATION

The National Board of Trade is the Swedish governmental agency responsible for foreign trade, EU internal market and trade policy. Its mission is to promote open and free trade with transparent rules. The basis for this task, given by the Swedish Government, is that a functioning international trade and a further liberalised trade policy are in the interest of Sweden.

www.svenskhandel.se

EKN - THE SWEDISH EXPORT CREDIT AGENCY

EKN, The Swedish Export Credit Agency, is an authority with the task of promoting Swedish exports. It does this by insuring the risk of non-payment in export transactions. It also insures banks' lending to both exporting companies and their buyers. EKN's guarantees make complex markets available and enable more secure export transactions. Furthermore, EKN works with prominent global companies and smaller ones and guarantees their export business to over 130 countries.

VISIT SWEDEN – Official website for tourism and travel information

Visit Sweden is Sweden's National Tourism Organisation – it promotes the destination and Sweden brand to attract more foreign visitors, both short and long term. More visitors and more extended visits mean business for the Swedish tourism industry, economic growth, and increased employment throughout Sweden. Visit Sweden is owned 50% by the Swedish state and 50% by the Swedish tourism industry.

www.visitsweden.com

VINNOVA – Swedish Government Agency for Innovation System

Vinnova is Sweden's government agency for innovation. Vinnova's mission is to contribute to sustainable growth by improving the conditions for innovation. They do this mainly by funding innovation projects and the research needed to develop new solutions. Vinnova's vision is for Sweden to become a leading global player in research and innovation and an attractive country for investment and entrepreneurship. Vinnova also invests long-term in solid research and innovation environments. In addition, Vinnova stimulate collaborations between companies, universities and other higher education institutions, public services, civil society and other actors. Their activities also focus on strengthening international cooperation.

ABOUT THIS BUSINESS DIRECTORY

This directory over Swedish Businesses in Singapore is a joint production made by Business Sweden, the Swedish Chamber of Commerce Singapore, and the Swedish Embassy in Singapore. The directory was produced during the spring of 2025, and the information in the directory has been gathered through e-mail and telephone calls. Singapore official records state that there are close to 400 Swedish businesses registered in Singapore. In this directory, however, several business entities may have been grouped under one corporate brand. This directory, therefore, contains data on 200 Swedish Businesses. Companies that did not reply are listed at the end in the directory with their website addresses only.
